

Color Run Is Coming!! Friday- March 3rd!

Greetings Parents,

Great news! **ALL** students will get to attend the Color Run event on March 3rd! Please review event information below.

What to wear

- Wear an old T-Shirt (preferably white)
- If your student earned a T-Shirt, they will be passed out on the day of the event.
- The color powder washes out of most clothing but can stain some materials. 100% cotton clothing which requires typical machine washing is recommended.
- Glasses or goggles are not necessary but recommended.

Prizes

If your student qualified for prizes, they will receive them in their classrooms on the day of the event

Safety

Safety is our main priority! The color powder is made with high quality cornstarch, food dyes and baking soda. All materials are 100% FD&C and/or D&C approved and contains natural fire-retardant materials.

The color powder is gluten free and does not contain dairy, nuts, wheat, soy, or other common allergens. Although it is made from all food safe ingredients, it is not intended for human consumption.

Anyone who has asthma, is allergic to any of the ingredients, or has any respiratory issues should exercise caution when participating in our event.

How to keep the colors in your shirt after the event

1. Lay shirt flat and spray to soak with white vinegar: spray generously, (and we mean really soak it) and be aware that the colors may blend and bleed together as the fabric becomes wet.
2. Keep the T-Shirt flat to dry.
3. Iron- Place a rag between the shirt and the iron to set the color with heat.
4. Toss in the dryer: As a final assurance to set the color, turn the shirt inside out and throw in the dryer on high heat for about 10 minutes.

If for any reason you would prefer your student not participate in the Color Run event, please contact your student's teacher directly.
